

My Weather Diary

For each day of the week write down what the weather is like - sunny, raining, cloudy, windy.

For each day of the week write down how warm it feels - hot, cold, warm, cool. Just like this:

Today it is **sunny and windy**.
 Today the temperature feels **warm**.
 The temperature at **10 o'clock** was **20 °C**.

If you have an outside thermometer measure the temperature at the same time each day.

Write down the date	Fill in the missing words or numbers	What sort of Renewable Energy day is it today? (It can be more than one) Solar Wind Hydro Bioenergy
Monday	Today it is Today the temperature feels The temperature at ____ o'clock was ____ °C	
Tuesday	Today it is Today the temperature feels The temperature at ____ o'clock was ____ °C	
Wednesday	Today it is Today the temperature feels The temperature at ____ o'clock was ____ °C	
Thursday	Today it is Today the temperature feels The temperature at ____ o'clock was ____ °C	
Friday	Today it is Today the temperature feels The temperature at ____ o'clock was ____ °C
